### TOKEN AND MEDAL AUCTION #32 – PART II

CLOSING DATE: JUNE 11, 1982

1. Bid the highest amount you are willing to pay for the lot. Your bid will be reduced to a 10% advance over the second highest bid. There is no limit to the amount that we will reduce a bid.
2. Bids under \$10.00 will not be reduced and bids will not be reduced to under \$10.00.
3. In instances where there are duplicate lots, you may bid on an either/or basis and indicate a preference if you like.
4. Some lots are reserved. The auctioneer will execute such reserves by bidding for the consignor through its representatives.
5. All invoices will be shipped with lots enclosed and are payable within 7 days of receipt. Returns must be made within this period. We attempt to use strict numismatic standards in our grading and to note defects, which in our professional judgment, affect the value of the item. However, we do make mistakes and will accept returns when we are in error. On the other hand, capricious returns will not be tolerated.
6. Postage and insurance will be added to all invoices and paid by the bidder. We ship most lots via UPS unless instructed differently. Bidders on the heavier medallic items who use post office boxes are urged to give us their street address for UPS delivery as their charges are often considerably less than the Postal Service.

### AUCTION SUBSCRIPTIONS

We have finally computerized our subscription list. If you will look at the computer address label you will note either a number, such as 32, or the letter "C" opposite your name. "32" means that your subscription to our sales expires with the publication of Auction #32 (this sale). If you note a "C", that indicates that your subscription is a complimentary one. These are given as a matter of courtesy to all dealers who request it. If you see neither a number nor the letter C, then this means that you have received a one-time only complimentary copy and that you will have to subscribe to receive future sales.

## Presidential and Political

*In 1878 August Brichant of Brussels, Belgium designed a series of Presidential medalets from Washington to Hayes. The obverse of each had 24 stars and the name of the President in the center with the year of his inauguration below. Each had a common reverse of a displayed eagle with BRICHANT DIR below. DeWitt pictures such a piece as MVB-B and lists it in copper only. However, they are known to be struck in white metal and silver also. The following 16 lots are all in proof white metal with minor hairlines.*
